

BREAKING NEWS: NORTHERN BEACHES & WESTERN HARBOUR TUNNELS

- The schools, daycares, hospitals and homes in our areas will be in the impact range of multiple unfiltered pollution stacks
- The 24/7 construction zone will mean we'll suffer constant noise, tremors, traffic & toxic dust
- The old tip site & quarry at Flat Rock will be excavated, meaning risk of asbestos & lead being released
- Harbour dredging will damage the water quality & marine ecosystem
- Local parks & sporting grounds have been targeted as construction dumping grounds
- 70 heavy trucks/hour on our local streets will cause traffic gridlock
- Property values will fall during the 6 year construction, possibly permanently

**If this isn't the lifestyle you want, don't ignore the facts
- make your voice heard.**
